Joy is the engine of growth and the
inspiration of our work. Laugh is a
measure of how comfortably we express
ourselves. We like to think about our
projects as beautiful experiments,
iterations, attempts, trials, and errors.
Little jumps over irrational tradition and
disciplinary fences.

moho architects

MIXED USE TOWER

TYPE: **mixed use / competition**

SIZE: **22.150 m²**

YEAR: **2009**
